

**ORDINANCE 2006-17**

AMENDING THE MUNICIPAL CODE BY ADDING SECTION \_\_\_ TO CHAPTER 5-15,

Article 1. General

Section 5-15-100 Intent. - (A) Review. The City Manager shall review the permit application, including all accompanying documentation, for accuracy and completeness, as well as for compliance

with this Chapter. The City Manager shall consult with the San Benito County Sheriff, California Highway Patrol, San Juan Bautista Fire Department and San Benito County Health Officer, and other public safety and regulatory agencies as necessary.

- (B) Approve/Denial of Permit. The permit shall be approved, conditionally approved, or denied by the City Manager, within fifteen (30) calendar days after receipt of the complete application. The City Manager shall provide notice to the applicant of his/her decision concerning the permit application in the manner provided for herein.
- (1) A permit shall not be issued until the applicant accepts in writing the decision to approve the permit, with or without conditions, and indemnifies the City. To be valid, a written acceptance must be accompanied by proof of compliance with any applicable conditions precedent, and received in the office of the City Clerk no later than twenty-one (21) calendar days after the notice has been mailed. The applicant's failure to submit a valid acceptance as required herein, or to file a timely appeal to the City Council, shall automatically be deemed a withdrawal of the application. The City Manager shall issue the permit upon receipt of a valid acceptance, and shall provide notice to the permittee that the permit has issued.
- (C) Grounds for Denial – Imposition of Conditions. The following factors shall be considered by the City Manager in determining whether to deny the permit, or whether the imposition of reasonable permit conditions pursuant to this Chapter will satisfy public health, safety or welfare concerns and allow the parade/public gathering to proceed as modified.
- (1) The person for the permit has failed to provide supplemental application information requested by the City Manager or designee has otherwise failed to complete the application;
- (2) An application for another event to be held on the same date as that requested by the applicant has been previously filed or approved, and such other event is so close in time and location to the event proposed by the applicant as to cause undue traffic congestion or jeopardize the City's ability to provide public safety or other emergency services to both events or to the public-at-large;
- (3) The time, route, or size of the event will unduly impede, obstruct, impair or interfere with the safe and orderly movement of traffic contiguous to the site or route of the event, or the public's use of the street or other public property;
- (4) The proposed use of the property is governed by or subject to other City permit procedures or other applicable laws, rules or regulations;
- (5) The proposed event presents a substantial or unwarranted safety or traffic hazard;
- (6) The preparation for or the conduct of the proposed event will unduly impede, obstruct, or interfere with the operation of emergency vehicles or equipment in or through the particular permit area, or will adversely affect the City's ability to perform municipal functions or furnish City services in the vicinity of the permit area;
- (7) The size of the event will require the diversion of so many sheriff's officers to ensure that participants stay within the boundaries or route of the event and to protect participants in the event, so as to prevent or jeopardize reasonable protection to the rest of the City; provided, however, that nothing herein authorizes the denial of a permit because of the need to protect participants from the conduct of others if reasonable permit conditions can be imposed;

- (8) Given the size and nature of the event, the reasonably available number of sheriff's officers, firefighters and other personnel is not sufficient to ensure the safety of participants or the attending public;
- (9) The event consists of a parade that will not move from its point of origin to its point of termination in three (3) hours or less;
- (10) The location or conduct of the event will substantially interfere with construction or maintenance work previously scheduled to take place in, on, or along the City street, or other public property to be occupied by or adjacent to the event;
- (11) The event will occur at a time when a school is in session and along a route or at a location adjacent to the school or a class thereof, and the noise created by the activities of the event will substantially disrupt the educational activity of such school or class;
- (12) The event will have significant adverse effect on the environment;
- (13) The application has been filed later than ninety (90) calendar days before the event, as required by this Chapter, and based upon the anticipated size of the proposed event, or its particular requirements, or its need for or impact on City personnel or services, there is insufficient time to evaluate, process or condition the application to ensure compliance with this Chapter or to protect the public health, safety, or welfare.

(D) Denial of Permit. The existence of the following grounds shall result in the denial of a permit application:

- (1) The imposition of permit conditions pursuant to this Chapter will not satisfy or mitigate reasonable public health, safety or welfare concerns;
- (2) The information contained in the application, including any supplemental information required by the City Manager, is found to be false in any material respect;
- (3) The applicant has not fully complied with the requirements of this Chapter, or has violated any of the provisions of this Chapter, or any permit condition imposed by the City.

Section 5-15-215 General permit conditions – Indemnification – Liability insurance.

- (A) Indemnity Agreement. As a condition precedent to the issuance of a permit authorizing an event, the permittee shall enter into an agreement with the City in a form approved by the City Attorney which shall set forth the undertaking of the permittee to indemnify the City, and hold the City harmless and reimburse the City from and for any liability, damage or loss occurring during the course of the event authorized by such permit where such liability, damage or loss is proximately caused by the negligent or intentional act or omission of the permittee, any officer, employee or agent of the permittee, or any person who is under the permittee's legal control. In addition, such agreement shall provide that, if a claim is made against the City by suit or otherwise, whether the same be groundless or not, arising out of such negligent or intentional act or omission, the permittee shall defend the City and shall indemnify the City for any judgment rendered against it or any sums paid out in settlement or otherwise. Such agreement shall be filed with the City Clerk prior to the issuance of the permit.
- (B) Liability Insurance. As a condition precedent to the issuance of a permit authorizing an event, a permittee shall obtain public liability insurance from an insurance company

licensed to do business in the State of California and having a financial rating in Best's Insurance Guide of at least "B". Such insurance shall provide "occurrence" coverage against liabilities for death, personal injury or property damage arising out of or in any way connected with such event. Such insurance shall be in the amount of at least one million dollars (\$1,000,000), combined single limit per occurrence, and shall name the City and the City's officers, employees and agents as additional insureds under the coverage afforded. In addition, such insurance shall be primary and noncontributing with respect to any other insurance available to the City and shall include a severability of interest (cross-liability) clause. Proof of such insurance, in a form approved by the City Attorney, shall be filed with the City Clerk prior to the issuance of the permit and such insurance shall be maintained in full force and effect throughout the course of the event authorized by such permit.

Section 5-15-220 Appeals.

Any person aggrieved by a decision of the City Manager made under this Article may, within five (5) business days of the date of such decision, file an appeal in writing with the City Clerk. The appeal shall set forth the specific basis of the alleged error. Upon receipt of the written appeal, the City Clerk shall set the matter for hearing before the City Council within fifteen (15) calendar days following the filing of the notice of appeal. Following the hearing, the City Council may sustain, modify or reject the decision of the City Manager, consistent with the provisions of this Chapter. Within two (2) business days after the City Council's decision, the City Clerk shall provide notice to the applicant of the City Council's decision. The applicant shall have five (5) business days after receipt of the notice to file a written acceptance of the decision with the City Manager. The failure to file an acceptance within the time period specified shall automatically be deemed a withdrawal of the application.

Section 5-15-225 Non-transferability.

A parade/public gathering permit issued pursuant to this Chapter may not be assigned or transferred, in whole or in part.

Section 5-15-230 General permit conditions – Personnel service charges – Refunds.

(A) Payment of Charges.

- (1) In addition to the payment of the nonrefundable permit application fee, the daily fees and any other fees prescribed by resolution of the City Council, a permittee shall pay the City for all City personnel costs, which are incurred in connection with or resulting from the permittee's activities under the permit. These fees include the cost of Sheriff Department personnel that are necessary to control and monitor pedestrian and vehicular traffic in and around the site of the event.
- (2) If City property is destroyed or damaged by reason of the event, the permittee shall reimburse the City for the actual replacement or repair cost of the destroyed or damaged property.
- (3) Each permittee shall be jointly and severally liable for the payment of fees and charges required by this Chapter.
- (4) Cash Deposit. As a condition precedent to the issuance of a permit authorizing an event, the permittee shall pay to the City a cash deposit in an amount sufficient to

cover all applicable fees, including the total City personnel charges which the City Manager estimates will be incurred in connection with the permit.

Section 5-15-235 Special permit conditions.

When acting on a permit authorizing an event, the City Manager or designee after reviewing the facts may condition such permit upon the permittee's compliance with reasonable requirements concerning the time, place or manner of conducting the event as deemed reasonable and necessary to protect the health or safety of persons and property, or to control vehicular and pedestrian traffic in and around the site of the event. Such conditions may include, but shall not be limited to, requirements concerning the following:

- (A) The assembly or disbanding area for a parade occurring along a route;
- (B) The accommodation of pedestrian and vehicle traffic in and around the site of an event, including restricting an event to a City street, sidewalk, or to a portion of a City street or other public property;

- (E) The inspection and approval by City personnel of stages, booths, floats and other structures or vehicles to be used or operated in the event, to ensure that such structures or vehicles have been safely constructed and can be safely operated;
- (F) The deposit of a sum of money for cleanup if the event will take place on public property and will include the erection of structures, the display or use of horses or other large animals, the operation of water, first aid or comfort stations; or the sale of food, beverages or other goods or services;

- (N) Block Captains. The event organizer may be required to assign "Block Captains". If an entire block is part of the event, the block includes the four sides of one block. If, for example, the event occurs on both sides of a street, the "block" would constitute both sides of the street. It is possible that the Block Captain would be responsible for both sides of a street spanning two blocks, but in no case shall the Block Captain responsibility extend to three or more blocks. The event organizer shall be the liaison between the City

and the Block Captains. The duties of the Block Captain includes making sure that trash bins are emptied and properly disposed of so as not to be visible to the public, assure that vendors implement contract conditions, and reports to the event organizer as needed to resolve problems.

- (O) Unique items sold. The event shall sell items in keeping with the spirit and intent of the event.. Organizers are expected to familiarize themselves with existing San Juan Bautista businesses and attempt to avoid duplication of wares as much as possible. The intent of this restriction is to avoid duplicity and encourage a more rich and satisfying experience for event attendees as well as a more profitable experience for all businesses. Information on the appropriateness of product lines for sale can be obtained through the San Juan Bautista City Hall or Chamber of Commerce.
- (P) Food.
  - (1) Food booths that are not associated with an existing San Juan Bautista licensed food business, selling non-snack food shall be located in a “food court” environment to allow patrons access to hand washing stations and seating. The food court shall be located in a place that is deemed appropriate for the event as negotiated with City Hall. The intent of this restriction is to insure that attendees can ingest food in a sanity and comfortable manner without inflicting upon the facilities and resources of local restaurants or damaging the saleable goods of vendors and store owners. Alternatives to this set-up must be approved in advance by the City Planner, City Manager and the County Health Department. San Juan Bautista licensed food businesses may alternately choose to have a booth in front of their regular business establishment if patrons have access to the business’s facilities for hand washing, restrooms and seating.
  - (2) Food booths selling snack food may be located throughout the fair. Snack food is defined as food that is eaten with fingers, one hand or drinks it requires no plates, utensils or necessity to sit.
  - (3) For events occurring on Third Street it is recommended that the food court be place on either Washington or Mariposa side streets or on Third Street between Washington and Mariposa. Seating may be placed on nearby side streets as long as it is readily visible to attendees seeking places to sit and eat. Alternative locations can be discussed with the City Planner, City Manager or designee.
- (Q) Food Vendor Guidelines:
  - (1) To support our local economy and our thriving restauranteers, at least 75 percent of food vendors shall be “non-profit” local groups, San Benito County vendors, or vendors located within 30 minutes of San Juan Bautista..
  - (2) Food vendors shall not offer products directly competing with local vendors unless the vendor represents a local or non-profit organization. The intent of this regulation is to promote diversity and prevent over saturation of product lines.
  - (3) The City reserves the right to restrict the number of food and snack food vendors. The event organizer must submit their vendor plans to the City for approval at least four weeks prior to the event.
- (R) Vendors should not be located within 20 feet of a business that sells the same or similar items unless approved in advance by the City Manager

Early shut down penalty fees can be assessed to the event organizer in an amount to be determined by the City Council, from time to time.
  - (U) Electrical needs of the vendors shall be obtained through the city and not through SJB businesses. Fees shall be assessed per vendor if electrical chords are found connecting the vendor to a business. Penalty fees can be assessed to the event organizer in an amount to be determined by the City Council, from time to time. A flat fee for electrical hook-up shall be paid to the City by the event organizer based on the number of electrical connections required. The SJB Public Works staff shall be responsible for hooking up the vender to the electrical source. City Public Works shall also verify that the number of electrical connections is reflected in the special event contract. In the event that the number of electrical hook-ups does not correlate with the fees paid, the event organizer and the City shall address this cost at the post event briefing where post event fee adjustments would occur. This opening shall be in front of the main entranceway to the business, allowing one opening for each business or in the case of more than one business sharing the same hallway/courtyard opening, each hallway/courtyard opening. No business is entitled to more than one opening. These openings are gateways/passageways and are not to be used for commerce and are not to be obstructed. Businesses located beyond the opening may place City. Approved signage in the opening that identifies their business and the nature of the business but such signage shall not obstruct the gateway/passageway purpose of this opening.
    - (3) Each fire plug must be allowed such clearance as required by the California vehicle code. Any deviations from this must be approved by either the Fire Chief or the Fire Marshall.

- (3) Alternate set-up arrangement with vendors in the center of the streets are acceptable as long as a public safety corridor of at least 13 feet for the fire engine and 48 inches for ADA compliance can be maintained on both sides of booths lines.
- (4) The City allows businesses to rent parking spaces as an expansion of their business. In the event that a business has rented a parking space in front of their building or beside their building and to the extent that this rental conforms to current City standards for long term access rights (a minimum rental period is required for such access rights as opposed to a short term rental), these parking spaces remain the “property” of the business and are not available for use by the special event. Booth and/or vendor alignment must be designed to work around these spaces.
- (Y) Security. The event organizer shall work with the City Manager, or designee, to determine an appropriate level of security. As it pertains to other city staff see section 5-15-230(4).

- (B) Notice. When the City Manager decides to condition a previously issued permit based upon subsequently discovered facts, he or she shall immediately cause a notice of such action to be sent to the permittee. However, when the City Manager decides to condition a previously issued permit on the date of the event and has learned of such facts within forty-eight (48) hours of the event, the City Manager shall announce such action to the event participants, to those City officers and employees engaged in monitoring or controlling the event, and to the person in charge of the event, if such person can be located at the site of the event. Thereafter, the City Manager shall cause notice of such action to be sent to the permittee, and shall provide copies of the notice to the City Manager and City Clerk.

Section 5-15-245 Emergency suspension of authorized event. The City Manager and any Sheriff’s officer or other sworn peace officer employed by the City may temporarily suspend a parade/public gathering authorized by a permit whenever there is a fire or other emergency or circumstance that requires the event to be temporarily suspended to protect public safety. When an event is temporarily suspended for this reason, the permittee and event participants shall immediately comply with the suspending officer’s instructions. The City Manager shall immediately attempt to notify the permittee orally and shall notify the permittee, in writing, within twenty-four (24) hours after the suspension, citing with particularity the facts and the reasons for the suspension.

The City Manager, shall, when appropriate, post the route or site of such event as a no-parking zone for the duration of the event and sufficiently in advance thereof as may be necessary to prevent vehicles from parking along the route or at the site of the event. The City Manager may also designate areas as temporary handicapped or special permit parking. Violations of these designations shall be handled as individual infractions and subject to regularly set fines for such infractions.

Section 5-15-255 Revocation of permit. The City Manager shall revoke a permit authorizing an event if the City Manager determines that there were grounds for denying the permit, as set forth in this Chapter, which were first disclosed or otherwise made known to the City Manager after issuance of the permit and such facts were not discoverable by the exercise of due diligence prior to issuance of the permit.
