

For Immediate Release:

City of San Juan Bautista "Design Charette"

The City of San Juan Bautista, The Monterey Chapter of AIA, and the School of Architecture at CalPoly San Luis Obispo announce a "Design Charette" to be held in the City of San Juan Bautista November 2 – 4, 2007. Interested members of the public are encouraged to participate. A copy of the agenda is attached to this press release.

The City considers the design charette an excellent opportunity for members of the community along with professionals in architecture and design to brainstorm about the potential futures for the historic City. "The City is excited about working with AIA professionals and talented students and we look forward to seeing their ideas!" said Mayor Priscilla Hill.

City Manager Jan McClintock said "I hope this Charette will result in new energy and excitement for the business and property owners in San Juan Bautista. We look forward to having San Juan Bautista THE place to go for a weekend, a day, or an evening of relaxed enjoyment". She also stated that "The City frequently gets inquiries about available office space in the City for businesses to locate - but we don't have anything. I hope this Charette will show ways to integrate more professional offices into the historic fabric of the City. We are a great, centrally located place for businesses who service Monterey, Santa Cruz, San Benito and Santa Clara Counties."
