 Copperleaf Residential Development
 Edenbridge Homes
 San Benito County, California

Aerial Imagery and Source: NAIP, 6/9/2014

Photo 1: Roadside ditch between Manning Property and Highway 156. July 31, 2014.

Photo 2: Ruderal non-native grassland dominates the Property. July 31, 2014.

Photo 3: Willow and cottonwood thicket on the east side of the Property. The municipal operated well is inside the structure visible on the left. July 31, 2014.

Photo 4: Eastern boundary of the Property is flanked by tall coniferous evergreens including coastal redwoods and pine. These trees are within the adjacent campground. July 31, 2014.

Photo 5: Willow thicket on the Property. July 31, 2014.

Photo 6: View of largely vacant site from center of property, looking south. Ruderal vegetation is located on site. Agricultural fields, buildings and hills are located south of Old San Juan-Hollister Road. Photo taken July 31, 2014.

Photo 7: Photo facing east towards willow / cottonwood thicket and adjacent evergreen stand at the campground. January 2015.

Photo 8: Photo taken from southeast area of site, facing north toward State Route 156 where traffic can be seen. The dirt driveway runs along the eastern side of the property and then turns westward to a municipal operated well. The well structure is visible on the left side of photograph. April 8, 2015.

Photo 9: Photo taken from southeast area of site, facing west. A concrete standpipe associated with a former agricultural irrigation system is visible in the background to the left. The structure in the background is a dilapidated barn located on the west property line. April 8, 2015.

Photo 10: Photo taken from center of site, facing south across the predominantly vacant property. The property is bordered on the south by Old San Juan-Hollister Road, across which is agricultural land. The vehicle seen on the road, the structures and the hills in the background are located south of the Project property. April 8, 2015.
