A picture is provided in the application packet.

Compliance with Design Guidelines: The San Juan Bautista Design Guidelines give specific guidance for this type of sign in §7.3.7 "Projecting Signs." Those guidelines state that (how the sign conforms to the guidelines below each bullet):

- **Multiple projecting signs on the same or contiguous properties should not be installed within 8 feet of each other.**
 - No contiguous properties within 8 feet of the location of the proposed sign.
- **Projecting signs should be designed to complement the architectural style of the building.**
 - The sign fits in with the color scheme and style of other signs in the downtown area and will hang from the pre-existing bracket.
- **Projecting signs should not obstruct any door, window, fire escape or other emergency exit.**
 - The sign does not obstruct any door, window, fire escape, or other emergency exit.
- **Projecting signs are encouraged in high pedestrian areas.**
 - This business is located in the historic downtown area and would therefore be considered a high pedestrian area. Therefore this type of sign fits in the area.

- **Projecting signs should be placed close to the store's main entrance.**
 - The proposed sign will hang in between two windows near the main entrance, and will be visible from both Third Street and Polk Street.
- **Projecting signs should be located at ground level unless the building contains a second level with offices or storefronts.**
 - The proposed sign will be located at ground floor level.
- **The sign must maintain a ground level minimum clearance of 7' feet, 6" inches.**
 - The sign will exceed this minimum clearance by 4".
- **The sign should be placed at a 90 degree angle and at least 6 inches away from the wall.**
 - The proposed sign, when mounted, will conform to this requirement.
- **Decorative iron brackets are encouraged; wood brackets may also be appropriate. Bracket design should complement the shape of the sign.**
 - The proposed sign will hang from the pre-existing decorative metal bracket that was used by the previous business(es).
- **Projecting signs should be placed at a height consistent with adjacent buildings**
 - The proposed sign will be at a height consistent with adjacent buildings.

The proposed sign also conforms to the general standards set forth in the San Juan Bautista Design Guidelines §7.0-7.1 (see Attachment 2) in terms of design, location, color and materials, and sign legibility.

Action Required:

1. Receive staff report and supporting documents
2. Receive written comments, e-mail communication, oral testimony and public input.
3. Review the sign permit application materials to ensure that the project complies with the City of San Juan Bautista's Design Guidelines.
4. Based upon your independent review and judgment of the staff report, written comments, email communication, and oral testimony on the sign permit application, the Historic Resources Board should take the following actions.
 - A. Recommend that the Planning Commission approve the sign permit application for Crēdo Studio at 1 Polk Street, within the Historic District.

INFORMAL PROJECT REVIEW

Informal Project Review is for property owners that would like a preliminary review of their project by the Planning Department and the Planning Commission. The purpose of Informal Project Review is to provide the applicant with a comprehensive understanding of the planning and environmental issues involved with their project. Informal Project Review provides the applicant with direction on how the project can meet the overall goals and objectives of the City's Planning Department Development Codes and requirements. After Informal Project Review, the applicant can file a formal application with the Planning Department.

APPLICATION REQUIREMENTS INFORMAL PROJECT REVIEW:

- There is no processing fee
- Planning Application Cover Page with informal project review application.
- A copy of the building elevations (preferred drawn to scale).
- A copy of the proposed site plan with parking and traffic access and circulation (preferred drawn to scale).
- A copy of the proposed floor plan or plans. (preferred drawn to scale).
- Project Description in general.
- Photographs of the projects site and buildings if applicable.

Note: All items must be included in the application. Failure to include the requested information may result in a delay of the process.

Project Description:

1. Is any building designated as a national, state, or local historic structure on the site?

No

2. Describe the project (indicate the extent of proposed project).

Solar carports in the parking area out in front of the windmill market, or roof mounted on the shopping center.

3. List or describe in general the types buildings and the architecture style proposed for the project.

The solar carports are steel structures with solar modules installed as a "roof". The structures are typically 9' tall in front (south side) and 11' tall in back but can be lowered.

4. Provide any other information that you feel is relevant to this application.

The client is really interested in solar but does not have available roof space. 6/24/2015
We are assuming the old shake roof would be a less attractive option than carports but we are open to ideas.

TO MINIMIZE CLEARANCE IN FRONT TO ALLOW FOR BETTER VISIBILITY.
